

PATENT RESEARCHER / ANALYST

Italy / Remote

MWA presents this opportunity on behalf of a leading Italian IP firm. Over more than a century of operation, our client has expanded its client base across the world, working globally thanks to a proven and dense network of correspondents. Operating within a variety of scientific and technical areas and servicing clients of every size, the firm is proud to provide top-quality IP protection for a wide breadth of inventions. Facilitating innovation is at the core of the firm, as evidenced by multiple accolades and awards for IP and patents services in Italy.

Continuing on an expansion trajectory, the firm is looking to welcome a new Patent Information Specialist. This is an opportunity to:

Join a top firm: Our client enjoys global recognition for their work, consistently placing among the top firms. The firm maintains a reputation for providing exceptional patent, trademark, and design services.

Become a Key contact within the patent search team: your expertise will be highly valued. The firm serves a significant number of Mechanical Engineering clients working to push forward innovation in the field.

Make Your Mark: this is a growth position, with a view to develop and become a key expert within the organisation.

Our client is seeking a patent information specialist with at least 2 years of experience in the IP field. The successful candidate must be professionally fluent in English, with knowledge of Italian also advantageous, although not critical. You will possess an educational background in Mechanical Engineering, or a related discipline.

If you would like to make your mark within a dynamic firm, get in touch today!

For more information or to apply, please contact MWA. All third-party applications will be forwarded to MWA for assessment.
